International Medical Physics Week (IMPW) 11-15 May 2020

Prof. John Damilakis
Vice President, IOMP

We must continue to promote Medical Physics worldwide. During the IMPW and every day!

Prof. Eva Bezak
Secretary General, IOMP

We strive to grow and empower the next generation of medical physics leaders on all continents. In the ever-evolving world we embrace new challenges, such as artificial intelligence or nanoscience and apply them to healthcare.

Prof. Geoffrey Ibbott
Chair Science Committee, IOMP

By contributing to science, technology, education and patient care, medical physicists are a critical component in the provision of imaging and radiation therapy services.

Dr. Simone Kudlulovic Renha
Chair Awards and Honours Committee, IOMP

Medical physicists, with their skills and competences, knowledge and science, imagination and creativity, are dedicated to improve the quality of patients' diagnoses and treatment in a world of constant transformation, innovation and technological revolution.

Prof. Paolo Russo
Chair Publications Committee, IOMP

Thanks to all Medical Physicists, health professionals in a World that needs healthcare and safety!

Madan M. Rehani, PhD
President, IOMP

Through IMPW, we can enhance and highlight the importance of medical physics in patient care.

Prof. Slavik Tabakov, FIPEM, FIOIMP
Past President, IOMP

Contemporary medicine is impossible without medical technology. We have to be proud of our profession – Medical Physics - and promote actively its place in healthcare.

Dr. Ibrahim Duhaini
Treasurer, IOMP

Celebrating the IMPW gives great recognition to all Medical Physicists that they are professionally taking good care of many patients around the World.

Dr. Yakov Pipman
Chair Professional Relations Committee, IOMP

Medical Physicists enhance the capabilities of patient care teams by using scientific and analytical tools to the diagnosis and therapy of people in a great range of environments. We do this across borders and cultures.

Prof. Arun Chougule
Chair Education and Training Committee, IOMP

IMPW is the opportunity and platform to showcase the contribution of medical physics to healthcare. Medical Physicists are contributing immensely in the diagnosis and treatment, in addition to technology upgrades. They deserve more recognition.

Prof. Magdalena Stoeva
Chair Medical Physics World Board, IOMP

Achieving excellence in healthcare through medical physics and technology.
